New DDS0
(page 4)

Welcome to our 2019 gallery catalogue with over 900 products we carefully manufacture and stock for next day delivery. We are proud of the improvements and innovations we are constantly bringing to our stock.

CERTIFIED COTTON. We can confirm that over 90% of the cotton used in our manufacturing comes from farms that grow their cotton to the Better Cotton Initiative rules governing, water usage, minimum pay, soil management and modern best practise farming methods.

RECYCLED POLYESTER. Yes that's right-recycled polyester! A first in our industry with 19 products made from 100% recycled plastic bottles which reduces landfill and uses less energy to create a great value premium product.

QUALITY MANUFACTURING. Our offices, warehouse and factories are variously approved to ISO 9000, ISO 1400, WRAP, SA8000, OEKO-TEX, BIFA, UKWA, UKFT, RoSPA.

NEW FOR 2019:

Dennys Originals. A new range of history inspired modern garments that close the gap between uniforms and fashion.

Le Chef PREP. Brings the brand out of the kitchen to innovative aprons.

Le Chef AIR. Less weight and more comfort on your back. The range grows with two new innovative jackets.

Comfort Grip shoes. Made specifically for our industry, lightweight and well-priced.

Soho knives. Quality knives at proper prices.

We are here to help you buy the right product.

Sincerely

Nick Jubert
Owner.

TERMS & CONDITIONS:

- All shortages, damages or non-delivery must be notified to us by telephone within 7 working days.
- All goods must be returned in good condition, original packaging, unworn, not processed & washed.
- All colours and sizes shown in our catalogue are guidance only.
- Printed or embroidered goods will NOT be accepted back for credit.
- Goods cannot be returned for any reason after 90 days from date of purchase.
- A restocking fee of 15% will be charged for goods returned later than 30 days, and 30% if returned later than 60 days.

OUR GUARANTEE:

- If for any reason you are not completely happy with your purchase you can send it back for a no quibble refund. Goods must be returned within 30 days in it's original packaging.

EMBROIDERY - WHAT DO WE DO?

We have the ability to alter and embroider a variety of garments in house. Whether you would like your jacket monogrammed with your name or your company logo added to your skull cap - our team have the ability to cater for this.

Step 1: Pick your garment

Most of our garments can be embroidered - all chef jackets, aprons, shirts and polos. We can also embroider many of our hats and some of our other garments - if you're not sure just give us a call!

Step 2: Pick your font

Text can be up to 30 letters on two lines. Additional lettering is available if space allows.

Step 3: Pick your colour

We have hundreds of colours of thread on hand. Opposite, are our standard colours but if you have a specific requirement, perhaps to match a company logo, we can colour match. If you'd like to find out which thread colours we have on hand, please give our sales team a call today.

Step 4: Pick your location

The diagrams below show the standard locations for embroidery. If you would like something different just ask us.

Embroidery Terms & Conditions

Embroidery is available to any design on most garments. We also offer an alteration service if needed. Please ask our sales team for more information when placing your order. Please note, once a garment is embroidered or altered, garments cannot be returned unless faulty. For larger orders we will require an embroidered sample to be approved before production of the complete order.

Bib Aprons Guide:

Bib Apron Adjustable Halter But will it fit everyone?

The bib apron is the ideal, low cost uniform option. It covers up staff clothing to make a consistent look. One size fits all, so it can be pool stock and available to all staff, It also gives you a large area for embroidery and badging.

Unless it has an adjustable halter it will not. Our new patented and registered system is hidden. It is laundry proof. It also gives you continuous adjustment, so that waist tapes will always be smartly on the waist.

Why choose a Dennys skull cap?

We pride ourselves that our caps have two features that make your working life that little bit more comfortable:

- All our caps are oval shaped to fit the head better.
- All our caps either feature air holes or use our breathable fabrics to help keep your head cool in the heat of the kitchen.

Maximum temperature advised for regular wash.

The temperature advised for industrial wash.

The garment should be delicately washed whether by hand or hand wash cycle.

The Staycool® System is used in all of our Le Chef jackets and aids ventilation and moisture transfer away from the body.

Do not bleach.

All AFD garments have a multi-functional and ecological technology which makes the smart fibres able to breathe and regulate temperature to prevent overheating.

Bleach resistant. The garment colour will resist accidental bleach damage.

Crease resistant. The garment has been treated to make it easy care and resistant to creases.

The garment has been treated with a finish to help easy cleaning of the garment.

Only suitable for dry cleaning.

Garment is waterproof.

Similar to Egyptian cotton, PIMA cotton is extra long staple (ELS), cultivated in Peru. It is considered to be one of the most superior blends of cotton that is highly durable and absorbent.

GOOD COTTON

We are proud that 90% of our cotton comes from well managed cotton producing farms that are registered to the **Better Cotton Initiative**. They are assessed twice a year to strict standards.

They promise:

- Efficient use of water
- Fair employment
- Better soil management
- Improved fibre quality
- Protection of natural habitats

GARMENT CARE

It is essential to read the care instructions shown on the garment label carefully. These care recommendations have been chosen to give the best results in cleaning, drying and ironing. It is important that they are followed to maintain the good appearance and wear life of the garment.

- Always wash dark and bright colours before wearing to prevent possible colour rubbing onto lighter garments or skin.
- Wash dark or bright colours separately to avoid staining of light colours in the wash.
- If tumble drying is recommended, you should select temperature/cycle duration setting from the wash temperature given on the label, e.g. if washing at 40°C then tumble dry at warm, if washing at 50 °C+ then tumble dry on hot. Never overdry, to prevent shrinkage of fabric or garment.
- For the best results do not mix fabrics with different fibre content in the same washload.
- Wash garments frequently to prevent heavy soiling.
- 100% cotton garments benefit from being pressed whilst still slightly damp.
- Reshape knitted garments whilst damp.

MEASURING

Chest - Measure around the fullest part of the chest or bust, keeping the tape level and held gently.

Waist - Measure around the body level with the top of your waistband.

Trouser Inside Leg - Place tape at fork position and continue down leg to the seam line of your shoe heel. Alternatively measure a pair of your favourite trousers.
