- Weight: 275 gm
- Care: All garments are machine washable @ 40°C
- Fabric meets Oeko-Tex Standard 100

PERFORMANCE

- Pilling: Grade 4+5
- Abrasion: 100,000 + with no threads broken.
- Colour Fastness: Grade 4
- Snagging: Grade 4

We call it 3D stretch as the fabric can stretch in any direction & enables us to produce garments that flatter & mould to the contours of the body much better.

In CONTOURFLEX garments these higher stretch properties are enhanced further with the addition of 6% elastane in the fabric & the use of stretch linings in Jackets, Dresses, Skirts and Waistcoats.

Using a knitted construction provides garments with a wonderful, feminine softness & a significantly higher degree of stretch than traditional, rigid woven fabrics, even those with elastane.

The net result is garments that offer superior comfort & movement with no sense of restraint.

WE’D RECOMMEND YOU REQUEST A FABRIC SWATCH OR SAMPLE GARMENT FROM YOUR SUPPLIER SO YOU CAN SEE & FEEL FIRST-HAND THE HIGH DEGREE OF STRETCH.

CONTOURFLEX GARMENT BENEFITS

- Breathable
- Machine washable
- Easy care
- Quick drying
- Non Crease

A contemporary collection of mens mix & match suits is available to complement the womenswear.
Odegon is not a finish but an innovative new fabric based on a special type of Nano-porous carbon based material that traps odour molecules using a completely inert, chemical free process.

Small fabric patches that are discreetly sewn under the armpit on Jackets, Dresses & Waistcoats that will absorb odour regardless of washing or dry cleaning. Odour molecules are captured in the fabric patches & retained leaving nothing but fresh smelling air as a result of the Van der Waals force.

These odour molecules are then released & washed away by the action of heat during washing or dry cleaning.

Odegon STAY FRESH TECHNOLOGY is permanent & does not wash out. It is kind to the environment, unlike anti-microbial finishes.

Using Nano-technology, a single Odegon patch has the equivalent surface area of a tennis court and limitless active functionality. It will carry on absorbing odour & giving protection for the lifetime of the garment.

Odegon - keeping garments fresh & wearers confident.

Premium quality & superbly tailored.

High performance lightweight tailoring where looking good for longer matters thanks to 2 way stretch Lycra & 60% luxurious wool blend.

Our longest established and biggest selling collection.
Nothing beats the feeling of wool. Luxurious, highly breathable & comfortable. In 247 Collection we blend 60% wool with polyester for durability and add 2 way stretch Lycra to produce a finely spun lightweight fabric that is designed to maintain its good looks throughout the working day, not just the first hour.

The 2 way stretch Lycra aids comfort & movement. When the fabric eventually creases these will be soft & diffused not sharp & will drop out quickly.

Of course a premium fabric deserves to be made into fabulous garments. 247 Collection pays particular attention with wonderful detailing throughout. Quality construction, linings & trims all feature. It’s no wonder we have a large portfolio of blue chip customers who have repeatedly worn it.

Available in 3 colourways in mens & womens styles, 247 Collection comes in a variety of style & fit options in a huge array of sizes designed to cater to everyone.

A CAPSULE COLLECTION FOR HARD WORKING ENVIRONMENTS

Rhino & Pride is a nice handling fabric in a heavyweight polyester/viscose blend and is easy care, machine washable.

Rhino & Pride Collection fits into two categories – Those that work in tougher working conditions that while needing to look smart need more durability. For example, Bus & Coach drivers, Security Guards, Matchday Stewards, Traffic Wardens, Rail Operators, Baggage Handling & Furniture Retailers.

The collection offers exceptional value for money & therefore works particularly well for businesses & organisations with high staff turnover on tighter clothing budgets. For example, the Hotel & Hospitality sector, Facilities Management & Healthcare.
