The Professional Edge

Welcome to our bigger and better gallery catalogue with over 900 products we carefully manufacture and stock for next day delivery.

**Sustainable, ethical and recycled.** We are proud of our cotton feel, recycled polyester selection, covering our wide range of 40 coloured aprons, as well as chef jackets, beauty tunics, waistcoats and trousers.

We have increased our **Dennys Originals** range to include a waistcoat and trousers, only using an **Eco Dyeing** technique to help the reprocessing of waste from the production.

## NEW STYLES FOR 2020 INCLUDE:

### Le Chef

The first knitted chef shirt - Page 26

The bib apron is the ideal, low cost uniform option. It covers up staff clothing to make a consistent look. One size fits all, so it can be pool stock and available to all staff. It also gives you a large area for embroidery and badging.

### But will it fit everyone?

Unless it has an adjustable halter, it will not. Our new patented and registered system is smartly hidden. It is also laundry proof and gives you continuous adjustment, so that waist tapes will remain on the waist.

# Have you cottoned on?

**There is no substitute for cotton  
in the kitchen!**

**It has low thermal conductivity and high water  
absorbency.**

**We believe a 100% cotton apron should be worn  
over any clothing used by chefs.  
Our cotton aprons are DP03, DP131, DP133,  
DP18, DP13, DP85 and DP85AQ.**

**We are proud that 90% of our cotton comes  
from well managed cotton producing farms  
that are registered to the Better Cotton Initiative\***

**Find out more about our cotton:  
[www.dennys.co.uk/good-cotton](http://www.dennys.co.uk/good-cotton)**

## Why choose a Denny's skull cap?

We pride ourselves that most of our caps have several features that make your working life that little bit more comfortable:

- We have designed our caps to be oval shaped to provide a better fit for comfort
  - Our caps either feature air holes or use our breathable StayCool fabric to help keep your head cool in the heat of the kitchen
- Additional features which can be found through various Denny's Brands skull caps include elasticated back, single band and turn up double band. Browse our selection to find what you require!

 DM99W Attache case  
 DM99Q Pastry knife 23cm (9")  
 DM99R Santoku 19cm (7.5")  
 DM99M Honing steel 20cm (8")

Maximum temperature advised for regular wash.

Suitable for laundries.

The garment should be delicately washed whether by hand or hand wash cycle.

The StayCool® System is used in all of our Le Chef jackets, which aids with ventilation and moisture transfer away from the body.

Do not bleach.

All AFD garments have a multi-functional and ecological technology which makes the smart fibres able to breathe, and regulate temperature to prevent overheating.

Bleach resistant. The garment colour will resist accidental bleach damage.

Crease resistant. The garment has been treated to help make it easy care and resistant to creases.

The garment has been treated with a finish to help with easy cleaning of the garment.

Only suitable for dry cleaning.

Garment is waterproof.

Similar to Egyptian cotton, PIMA cotton is an extra-long staple (ELS) cotton species, cultivated in Peru. It is considered to be one of the most superior blends of cotton that is highly durable and absorbent.

Recycled polyester. The garment has been made using 100% recycled polyester.

Eco dyed. This applies to our Originals range, made of cotton. The approximate 30% cutting wastage can be easily recycled without further processing as it hasn't been dyed.

**SLIM FIT**

A modern cut with less fullness.

Hand crafted from our historical catalogues of classic styles with the addition of modern techniques and stylish cuts.

**STRETCH**

Hi tech fabric incorporating state of the art stretch lycra.

**LOW COST**

Our best value garments.

Imitation buttons easily removed for laundering. Can be used with button strip elastic (DR36).

Snap fastener with a matte plastic cap.

Snap fastener with flat metal rim.

## EMBROIDERY - WHAT DO WE DO?

We have the ability to alter and embroider a variety of garments in house. Whether you would like your jacket monogrammed with your name or your company logo added to your skull cap - our team have the ability to cater for this.

### Step 1: Pick your garment

Most of our garments can be embroidered - all chef jackets, aprons, shirts and polos. We can also embroider many of our hats and some of our other garments - if you're not sure just give us a call!

### Step 2: Pick your font

Text can be up to 30 letters on two lines. Additional lettering is available if space allows.

### Step 3: Pick your colour

We have hundreds of colours of thread on hand. Below are our standard colours but if you have a specific requirement, perhaps to match a company logo, we can colour match. If you'd like to find out which thread colours we have on hand, please give our sales team a call today.

### Step 4: Pick your location

The diagrams below show the standard locations for embroidery. If you would like something different just ask us.

### Embroidery Terms & Conditions

Embroidery is available to any design on most garments. We also offer an alteration service if needed. Please ask our sales team for more information when placing your order. Please note, once a garment is embroidered or altered, garments cannot be returned unless faulty. For larger orders we will require an embroidered sample to be approved before production of the complete order.

Here you will find diagrams of our products  
and where our high performance breathable panels  
can be found in our garments.  
Please see the index (page 81) to find the product.

COOLMAX®

\*DF116E includes yoke panel only

# MEASURING

**Chest** - Measure around the fullest part of the chest or bust, keeping the tape level and held gently.

**Waist** - Measure around the body level with the top of your waistband.

**Trouser Inside Leg** - Place tape at fork position and continue down leg to the seam line of your shoe heel.  
Alternatively measure a pair of your favourite trousers.

## GARMENT CARE

It is essential to read the care instructions shown on the garment label carefully. These care recommendations have been chosen to give the best results in cleaning, drying and ironing. It is important that they are followed to maintain the good appearance and wear life of the garment.

- Always wash dark and bright colours before wearing to prevent possible colour rubbing onto lighter garments or skin.
- Wash dark or bright colours separately to avoid staining of light colours in the wash.
- If tumble drying is recommended, you should select temperature/cycle duration setting from the wash temperature given on the label, e.g. if washing at 40°C then tumble dry at warm, if washing at 50°C+ then tumble dry on hot. Never overdry, to prevent shrinkage of fabric or garment.
- For the best results do not mix fabrics with different fibre content in the same washload.
- Wash garments frequently to prevent heavy soiling.
- 100% cotton garments benefit from being pressed whilst still slightly damp.
- Reshape knitted garments whilst damp.
