EXCELLENCE IN WORKWEAR

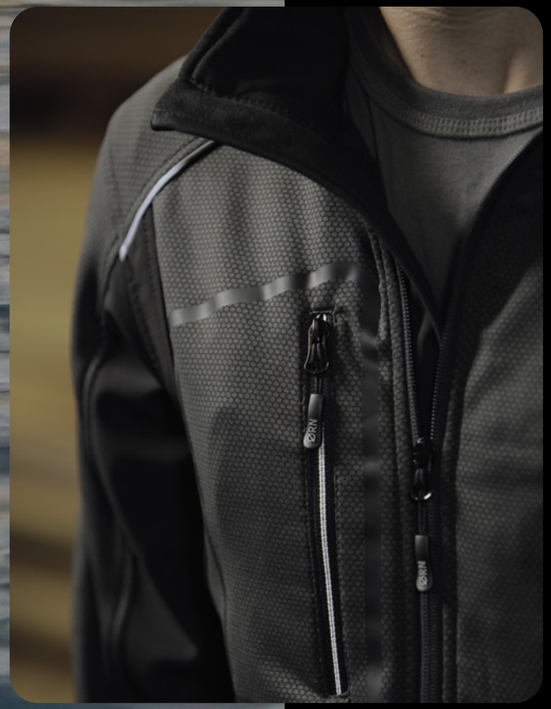

Introducing our workwear range.

We would like to thank our customers, suppliers and partners for the unstinting support given during this challenging year. Despite the disruption and uncertainty, we have used this time to evaluate every part of our design, sourcing, production and distribution process. All with one overriding objective - to ensure that we continue to make the most ethical, sustainable and responsibly produced workwear possible.

As well as everyday best sellers such as the Eagle Poloshirt, this catalogue features the new EarthPro® Recycled Collection.

WORKWEAR MADE BETTER

ØRN exists to make outstanding workwear.
Using higher quality fabrics that are responsibly sourced and better made, we design and manufacture workwear that is more sustainable for the planet, more ethical for our customers and better quality for our wearers.

ABOUT US

Focused on getting the basics right, ØRN International is a family run business dedicated to producing high quality, great value products for the workwear, corporate clothing & leisurewear markets. Central to everything we do, is our commitment to sustainable, enduring, mutually successful relationships.

OUTSTANDING QUALITY

Backed by a lifetime guarantee for all triple stitching and trims, ØRN produces an extensive range including poloshirts, sweatshirts, fleeces, jackets and trousers for both men and women.

We design in unique features to ensure superb quality, excellent fit and durability and with some of the lowest minimums available, we also originate and manufacture a wide range of custom-made clothing.

OUR WAY OF WORKING

Always innovating, we constantly review our working practices to meet the high standards we set ourselves. Guided by our principles, we are committed to producing the highest quality workwear in the most sustainable way, whilst being a responsible employer and an ethical business partner. Mindful of our responsibilities to the environment, our customers, our suppliers and our team we remain focused on creating the ultimate clothing range and delivering the best customer experience.

STOCK AND DELIVERY

Based in the Midlands and working with the UK's leading logistics companies, we are ideally located to offer a rapid service to our valued customers. Our high stock levels usually enable us to fulfil even the most complex of requests and normally all orders placed up until 3:00pm are dispatched for next day delivery within mainland UK and within 3-4 days for delivery to Europe.

BECOMING A SUSTAINABLE ØRN

At ØRN we have a long-term commitment to being a truly sustainable business which is why we aim to ensure that every facet of our business has as little impact on the environment as possible, whilst at the same time protecting lives and sustaining livelihoods.

In order to fulfil our commitments we have launched '**THE SUSTAINABILITY CONVERSION PROJECT**'. Through this we will evaluate all areas of our operation that impact negatively on the environment.
This will enable us to develop the detail of our sustainability strategy.

OUR ETHICAL & RESPONSIBLE WORKING PRACTICES

As a responsible manufacturer, we only partner with ethical and accountable producers who uphold and adhere to globally respected practices. This includes a zero tolerance to modern slavery and a commitment that our suppliers will not use involuntary, forced or trafficked labour nor hire any employee under the minimum age as established by law. We are proud to be a living wage employer which ensures that all employees aged 18 and over, including certain classes of contracted staff, are paid at least the living wage.

ACCREDITATION

Our ambition is for the ØRN brand to become synonymous with outstanding quality, ethical working practices, industry leading innovation and long-term sustainability. And with our ISO accreditation, our customers can be assured that they will receive the highest quality service levels that adhere to stringent Quality, Health & Safety and Environmental guidelines.

Global Recycled Standard
©TextileExchange

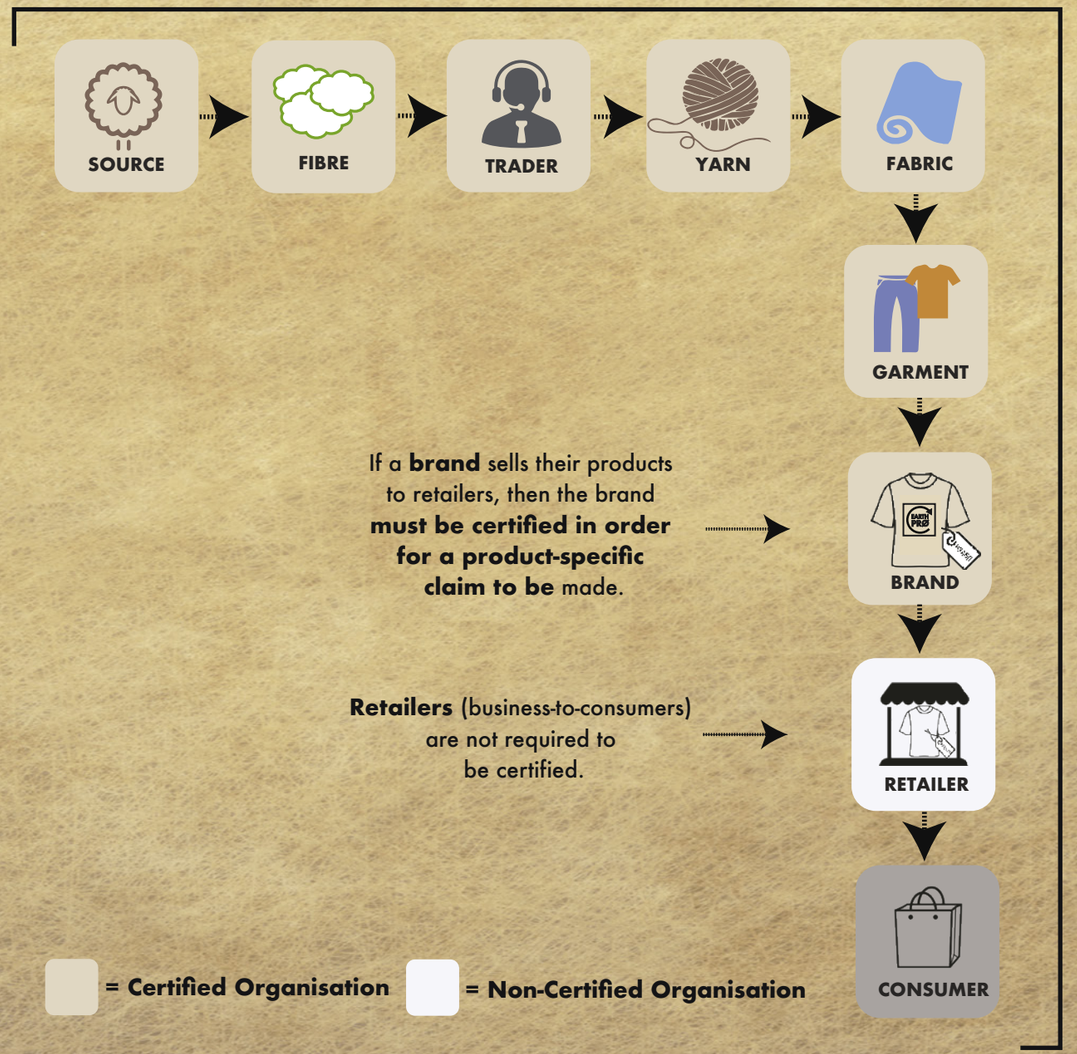

Certified by Control Union
CU 1050913

ØRN IS CERTIFIED TO THE GRS - GLOBAL RECYCLED STANDARD, WHICH VERIFIES RECYCLED CONTENT AND TRACKS IT FROM SOURCE TO THE FINAL PRODUCT.

As the demand for recycled product increases, ØRN has committed to an internationally recognised, independently verified certification process to ensure the integrity of its sustainable products.
Certification is a means to confirm that the levels of social and/or environmental performance claimed for a product are correct and verified by an external party.
Third party certification is considered one of the strongest ways to ensure the integrity of supply chain and sustainability claims. By using this system, an independent third party gives assurance that a company, process, or product is compliant with the requirements of a particular standard.

THE GRS AUDIT CHAIN

All sites must be certified through to the seller in the last business-to-business transaction.
Usually the last stage to be certified is the garment manufacturer or the brand.

If a **brand** sells their products to retailers, then the brand **must be certified in order for a product-specific claim to be** made.

Retailers (business-to-consumers) are not required to be certified.

= Certified Organisation **= Non-Certified Organisation**

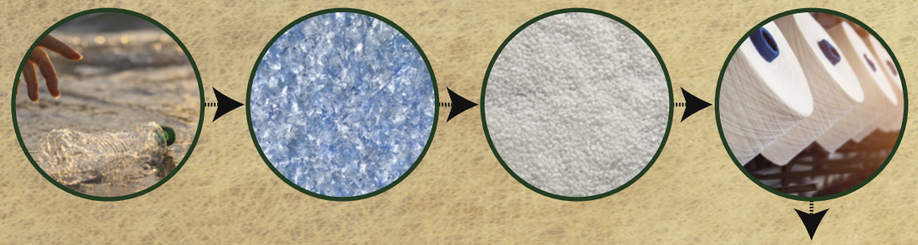

POST-CONSUMER RECYCLED POLYESTER

Plastic is collected from the seas, rivers and landfill

Plastic is shredded into Flakes

Flakes are melted into pellets

Pellets are extruded into yarn

The Recycled Polyester is then made into garments

Post-Consumer Recycled Polyester is used in the manufacturing of our EarthPro® collection of garments.

TEXTILE RECYCLING PROGRAMME

Our EarthPro® collection is made using recycled waste plastic and our commitment to sustainability extends well beyond just the manufacturing of the garments. We will recycle any EarthPro® garment returned to us, giving it a new lease of life and helping to reduce the volume of clothing ending up in landfill.

INTRODUCING THE EARTHPRO® COLLECTION

Including Post-Consumer Recycled polyester, **EarthPro® is the most sustainable collection of garments that we've ever made.**

GARMENT CARE

We take great care to use quality fabrics for all our ranges. Garment and fabrics are tested under carefully monitored conditions in accordance with recognised standards. Wash tests are used for colour fastness, shrink resistance and care label accuracy. Wear tests are undertaken to check the serviceability and longevity of garments.

LAUNDERING

Always refer to the care label before laundering and ensure the care label instructions are adhered to. Always wash dark colours separately. Fabric softeners and conditioners may prove detrimental to the performance of some garments.

GARMENT SHRINKAGE

Excessive shrinkage is primarily due to factors such as heat and major agitation during the wash cycle. Always wash as per the instruction as stated on the care label.

PILLING & BOBBLING

Abrasion and timely washing of garment with fabric softeners leads to fibre balls appearing on the surface of the fabric. Remove balls by mild surface brushing.

We strongly recommend washing inside out and not to use fabric conditioners in the wash.

TRIMS AND ACCESSORIES

Trims and accessories like zips, toggles, pocket linings and elastic cords are constructed for normal use.

COLOUR STAINING

Wash similar colour garments together. Do not leave damp garments together for any length of time.
